# The Survey

(a prelude)

Survey - <https://goo.gl/forms/m2lHygbsbgZHwyRd2>

# The Team

We are the 2016 Code for Australia Fellowship team assigned to work with the Department of Treasury and Finance in Victoria

We are a small team of developers, designers and community builders intent on making a difference in the way the government works

Back end specialist

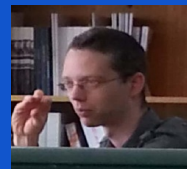

Elmer

Designer extraordinaire

Ken

# The Mission

# The Issues

*if you don't know what you are buying, who you are buying it from, how much money you are spending, then chances are - you are probably not doing it very well*

Reporting trial already underway

1/6th of the way into project

1 User interview for reporting

0 DTF staff who know where data is

---

# Demo Time

**Tenders VIC - <https://www.tenders.vic.gov.au>**

**Buy & Sell Canada - <https://buyandsell.gc.ca/>**

**USA Spending - <https://www.usaspending.gov>**

# Bonus material: Prototyping

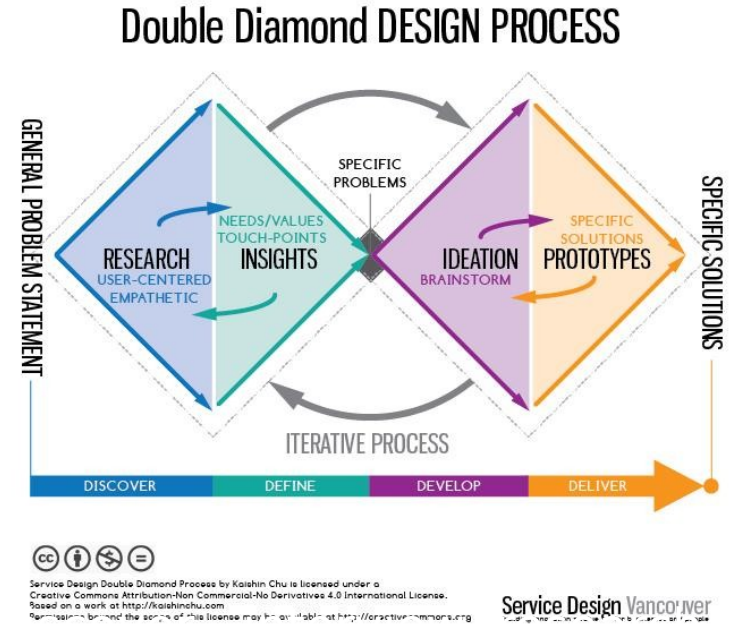

The pen is mightier than the  
IDE

# Bonus material: Double Diamond

It's design speak for agile

Define - scope, problem definition...

Develop - brainstorm, prototype...

Deliver - user testing, refinement
